THE MARK الشعار

The original logo (images/many_houses_logo.jpeg). Use it on screens.

The vector mark (assets/mark.svg). Use it for print, because it stays sharp at any size.

A house outline whose wall turns into a key: finding a home and getting its key.

WHY THE NAME سر الاسم

Many cities, many homes, one place to search. The name says what the app does: it puts houses from all over Egypt side by side, not only the ones in Cairo. The key inside the house mark is the promise at the end of the search.

DO افعل

- ✓ Show real screenshots of the app.
- ✓ Call it a working prototype.
- ✓ Give a source for every market number.
- ✓ Put the gold mark on black or on cream.

DON'T لا تفعل

- ✕ Say "verified" until partners really check listings.
- ✕ Use made-up testimonials or reviews.
- ✕ Advertise $ prices. Prices move to EGP first.
- ✕ Stretch, recolour or outline the mark.

TYPE الخطوط

DISPLAY · JOST

MANY·HOUSES

Search. Save. Draft.

Geometric capitals like the MANY HOUSES banner (images/manyhouses_baner.png). Headlines and the wordmark.

BODY · INTER

Price, rooms and area on every card. A map pin for every home.

The app's own body font (config.toml).

ARABIC · IBM PLEX SANS ARABIC

بيتك في كل مدينة

Every heading gets an Arabic subtitle. Labels use JetBrains Mono.

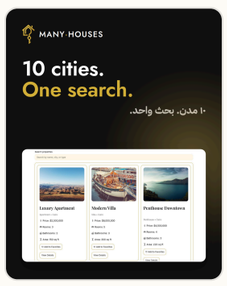

The app's headings use Playfair Display (config.toml). Print and social use Jost, to match the banner.

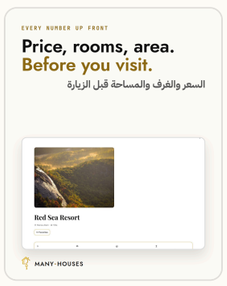

VOICE نبرة الكلام

Clear · warm · honest
Clear: numbers before adjectives. Warm: talk like a neighbour, not a sales office. Honest: say "prototype" and "next" where something is not built yet.

Write short sentences, and lead with what the person gets: "Price, rooms, area. Before you visit." Use numbers instead of adjectives.
