REAL ESTATE · EGYPT · 10 CITIES

MANY·HOUSES

✏️ **Student writes:** a 2–4 word tagline. Options: A "Every city. One search." · B "Your key to any city." · C "بيتك في أي مدينة"

✏️ **Student writes:** one sentence promise. Options: A "Search homes from Alexandria to Aswan, save the ones you love, and read the contract before you meet anyone." · B "Find a home outside Cairo as easily as inside it."

01 · WHY ✏️ **Student writes:** a headline about the problem. Options: A "Finding a home shouldn't take ten apps." · B "Cairo gets the portals. Everyone else gets Facebook."

THE PROBLEM المشكلة

Scattered, Cairo-first, hard to trust

- **Scattered:** brokers, Facebook groups and 5+ portals.
- **Cairo-first:** about 157k of Dubizzle's 200k+ property ads are in Cairo [37].
- **Hard to trust:** hidden prices, and fake and duplicate listings. Even the government built a platform to fight them [24].

OUR SOLUTION الحل

✏️ **Student writes:** the solution in 3–5 words. Options: A "Every city in one simple search" · B "One shortlist for all of Egypt"

- **One search** by name, city or type, across 10 cities.
- **Price, rooms, bathrooms and area** on every card, plus a map pin.
- **A shortlist and a contract draft** before you meet a broker.

02 · WHO A country on the move. بلد يتحرك

108M	936,739	98.2M	$36.5B
people in Egypt (CAPMAS, 2025) [1]	marriage contracts in 2024, each a possible new home [3]	internet users, 82.7% of people [5]	sent home by Egyptians abroad, FY2024/25 [20]

OUR FIRST CUSTOMERS ✏️ **Student writes:** pick one: A newly married couples outside Cairo · B Egyptians abroad buying back home · C local brokers as partners

OUR SPACE

Simple, and every city

The big portals compete for Cairo compounds and agents. manyhouses starts simple, in the cities they leave out.

WHY THE DOTS SIT THERE

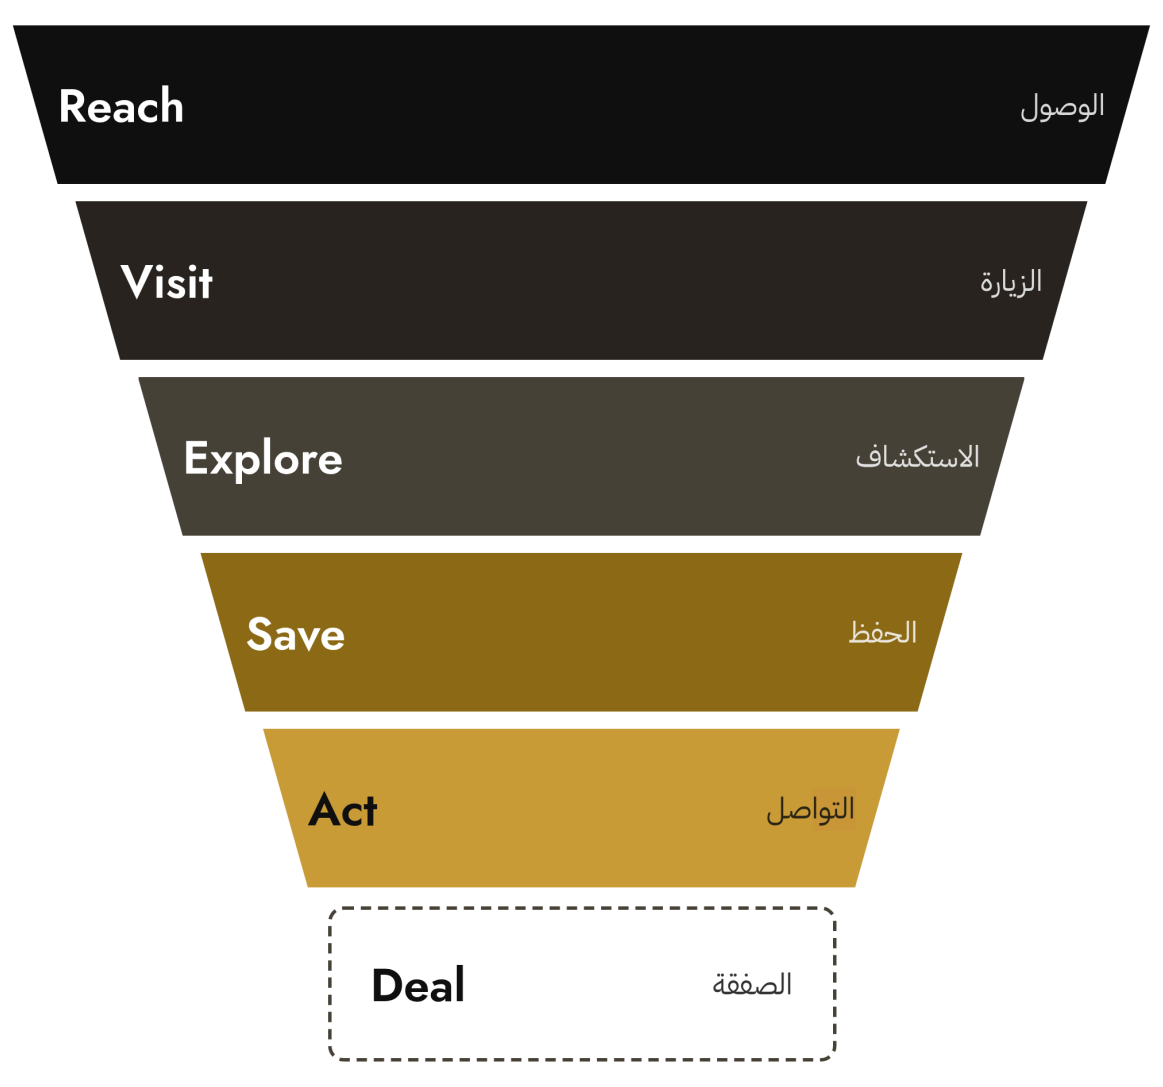
- Dubizzle: about 157k of its 200k+ property ads are in Cairo [37].
- Property Finder's featured projects cost EGP 12.4M–73.5M [32].
- Nawy lists compounds from about 150 developers [25].
- The government platform starts with 3,000+ units in New Alamein [23].

✏️ **Student writes:** check the dots against your interviews and your Aswan ad counts (research.md, questions 1 and 13). Move any dot that is wrong.

WHAT WE COUNT

The funnel قمع التسويق

WHAT WE COUNT AT EACH STEP



Reach	People who see a post or a QR code. `Facebook / Instagram insights`
Visit	People who open the app. `link clicks · QR scans`
Explore	Search, then open a property. `home.py → details.py`
Save	Tap the heart. `favorites`
Act	Download a contract draft or send a message. `contract.py · contact_us.py`
Deal	A visit or deal with a partner broker. `next: not built`

HONEST GAP

The app can't count yet

The steps from Explore to Act happen inside the app, which has no counter today. Social insights and QR scans can be counted from day one. An in-app counter is on the roadmap.

FIRST-MONTH TARGETS

✏️ **Student writes:** set one number per step, e.g. Reach 5,000 · Visit 300 · Explore 150 · Save 60 · Act 20 · founding partners 5. Pick numbers you can explain.

Each step keeps only some people from the step above. That is why the bars get narrower. The biggest drop shows where to improve first.

Brokers and owners: list your first homes with us.
